

## Platform presentations for ECSC 2019

Directions.

What will have a PC available for your presentation to be uploaded on the PC.  
You must bring your power-point on a flash drive.

Students must be present at the room for the presentation at least 30 minutes prior to the start of the session. All presentations for the session will be uploaded prior to the start of the session.

If your presentation is not uploaded prior to the start of the session it will not be given.

An IT person from Manhattan College will upload all presentations.

The IT person may be dealing with other issues in another room so students must be patient.

Students are responsible for their own introduction of their talk. Each talk will be 15 minutes in length with 3 minutes for questions.

The session must be kept on time so if a student is late at the start of the talk time, the end time will not change. Talk time will be reduced.

Sessions are timed to be in synchrony. Each session and presentations within a session must start and end on time on time, so that people can move from session to session.
