

Poster presentations for ECSC 2019

Directions.

What will Manhattan College supply: an easel, a hard backboard and four side clips.

The backboards can handle 3 ft tall by 4 ft wide posters.

Smaller posters may cause issues since the clips are along the outer edges of the backboards.

You need only bring your printed poster.

Your backboard will have your poster number on it. You will set up your poster and leave the card with the poster number on the lower right-hand, lower portion of your poster.

You must follow directions that will be printed in the booklet and any directions given by staff at the site.

Students must realize that judges and other people will need to see their poster.

Having faculty and student colleagues near your poster at the time of showing is not professional. These behaviors discourage judges from coming to you and your poster.
